HUE HUNT!

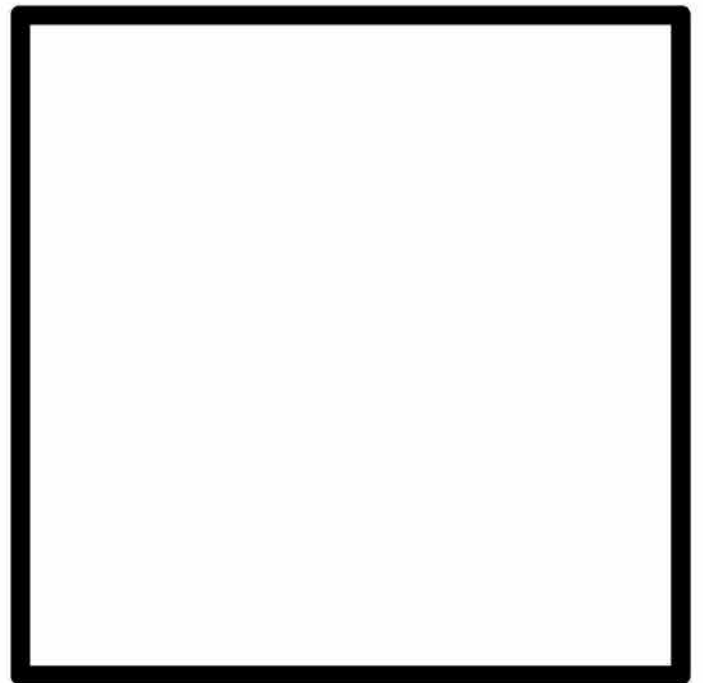

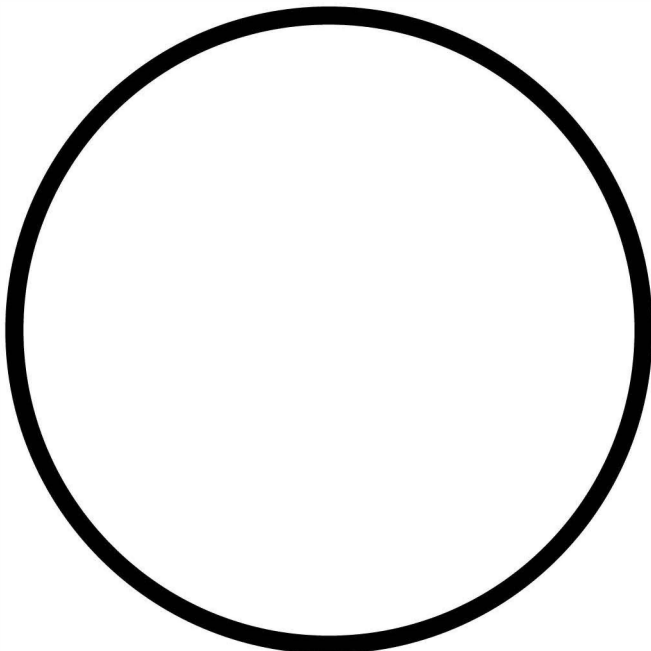

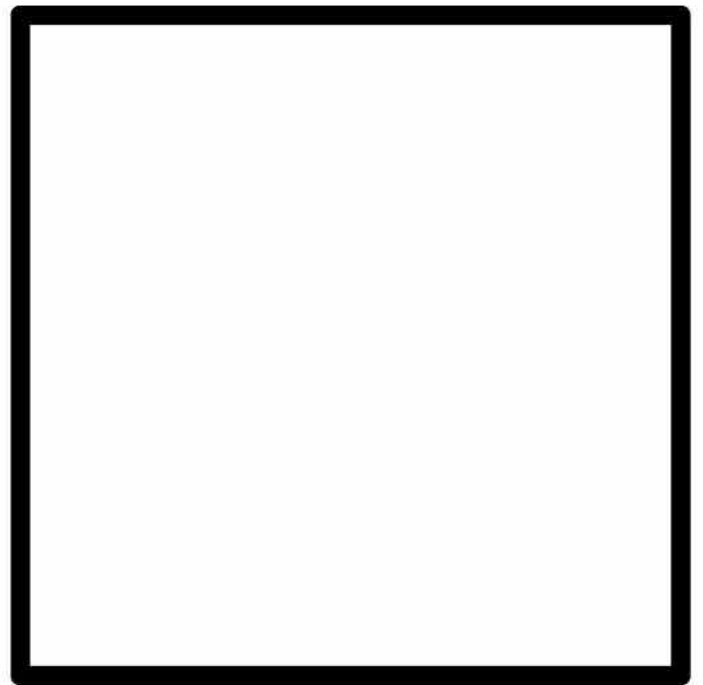

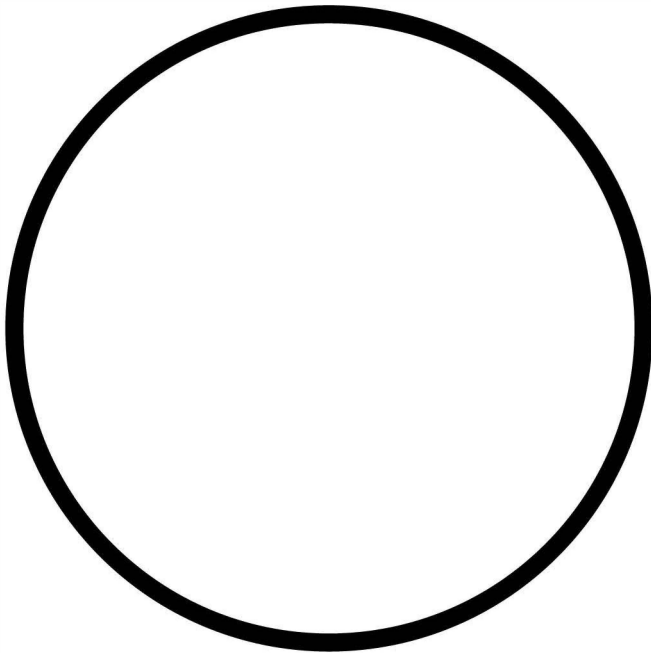

A color HUE (he-you) is the shade of a color, dark or light. Here's an example. Each of these colors is a green hue.

Find Colors!

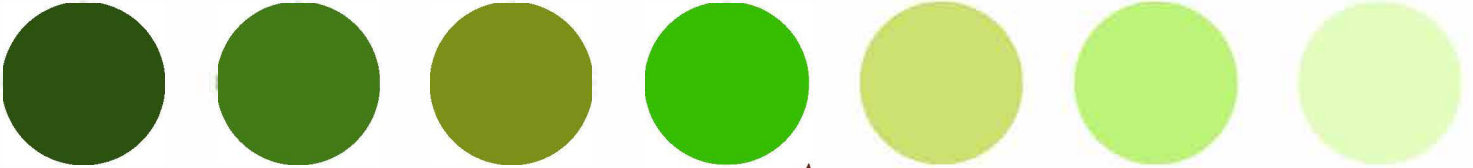

Find two objects. Use a crayon to color the circle the same color as the object, then draw what you found in the square.

OUTSIDE HUE HIKE!

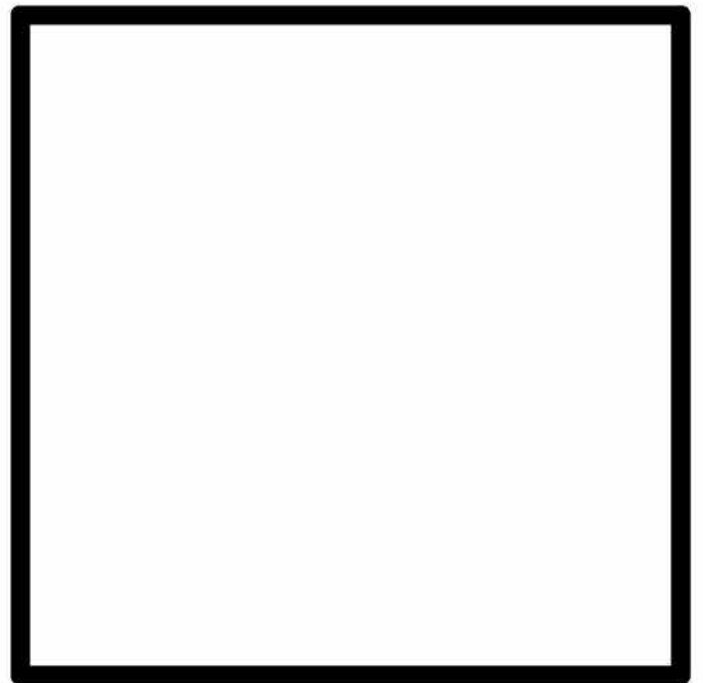

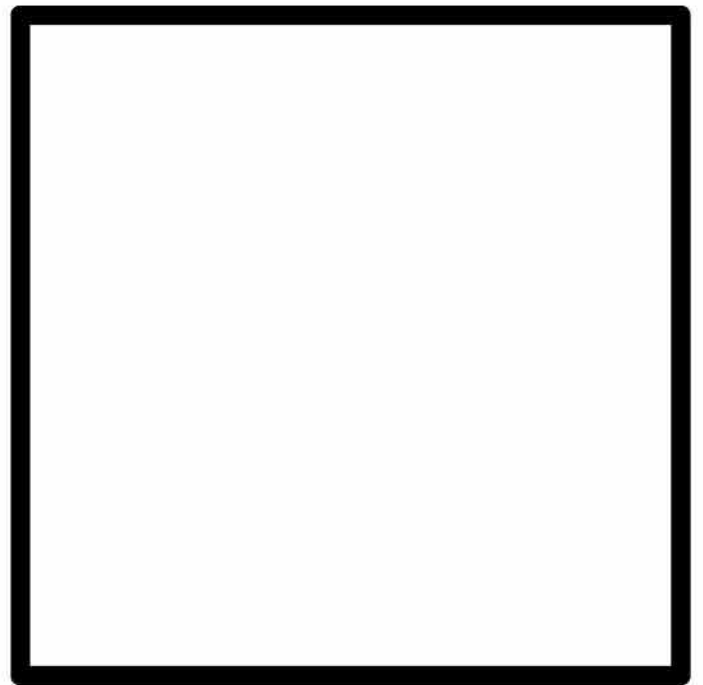

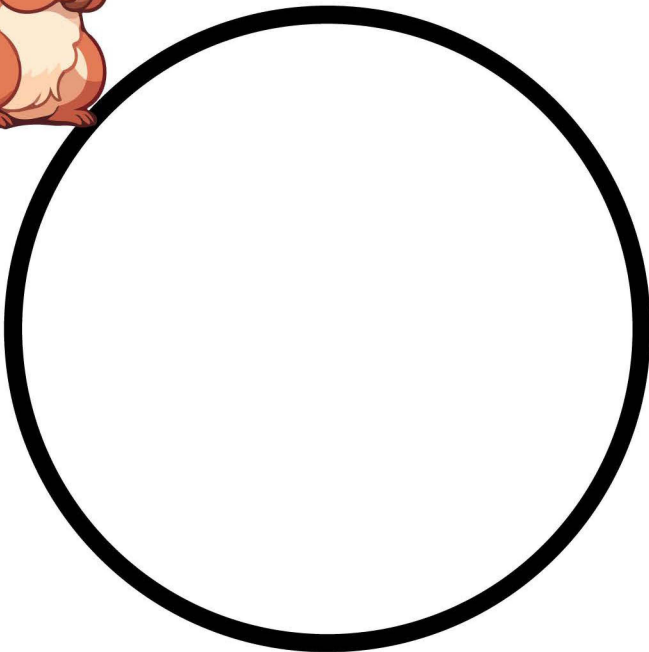

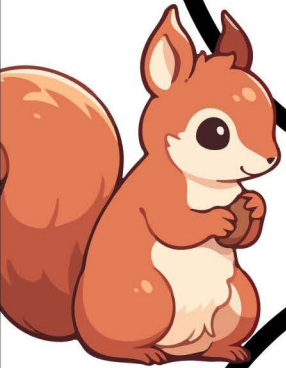

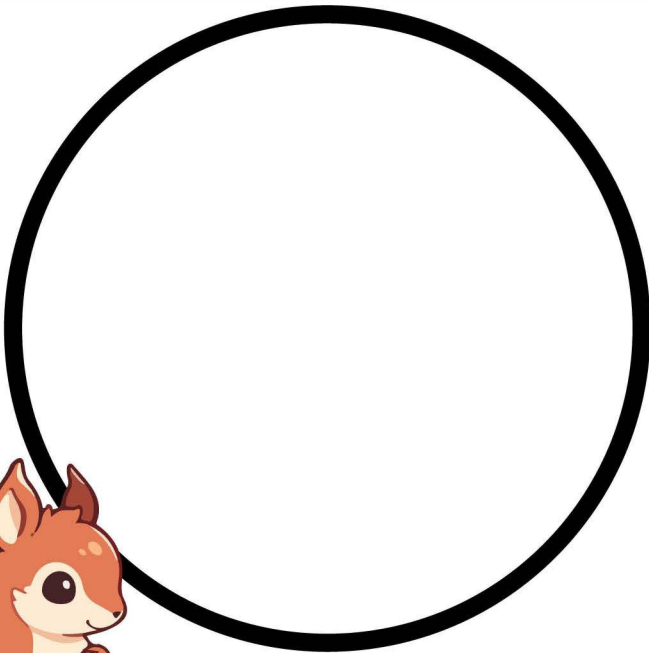

A color HUE (he-you) is the shade of a color, dark or light. Here's an example. Each of these colors is a green hue.

Find Colors!

Go outside and find two objects. Use a crayon to color the circle the same color as the object, then draw what you found in the square.

HUE HUNT 2

A color HUE (he-you) is the shade of a color, dark or light. Here's an example. On the top row of colors, each of these colors is a green hue. Look around inside your house, or go outside, and see if you can find the colors on this page. Put a check on each you find. Use the empty colored circles to color some of the hues you find.
