CONSERVATION ACTIONS

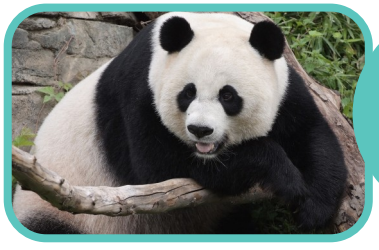
Conservation actions have protected many animals from harm and from becoming extinct.

Draw a line from each animal to the conservation actions that have helped.
Note: there may be more than one action for a species

Asian elephant

Cheetah

Panamanian golden frog



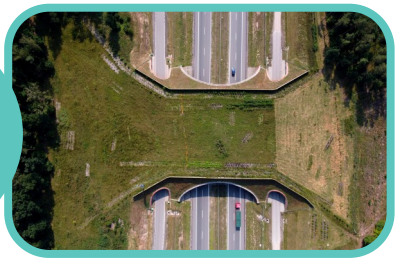
Giant panda

Black-footed ferret

Saving healthy habitats

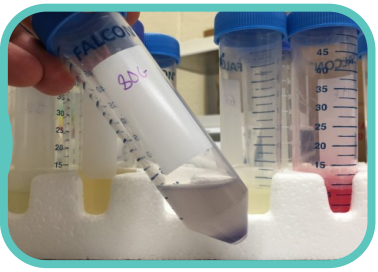
Animals born in zoos

Connecting habitats



Releasing animals to the wild

Researching how animals get sick



Smithsonian
National Zoological Park
Conservation Biology Institute
