

# Arctic Birds Connect the World! Las Aves del Ártico Conectan el Mundo!

Each spring, three related seabird species called jaegers nest in the Arctic.  
Cada primavera, tres especies de aves marinas emparentadas llamadas págalos anidan en el Ártico.

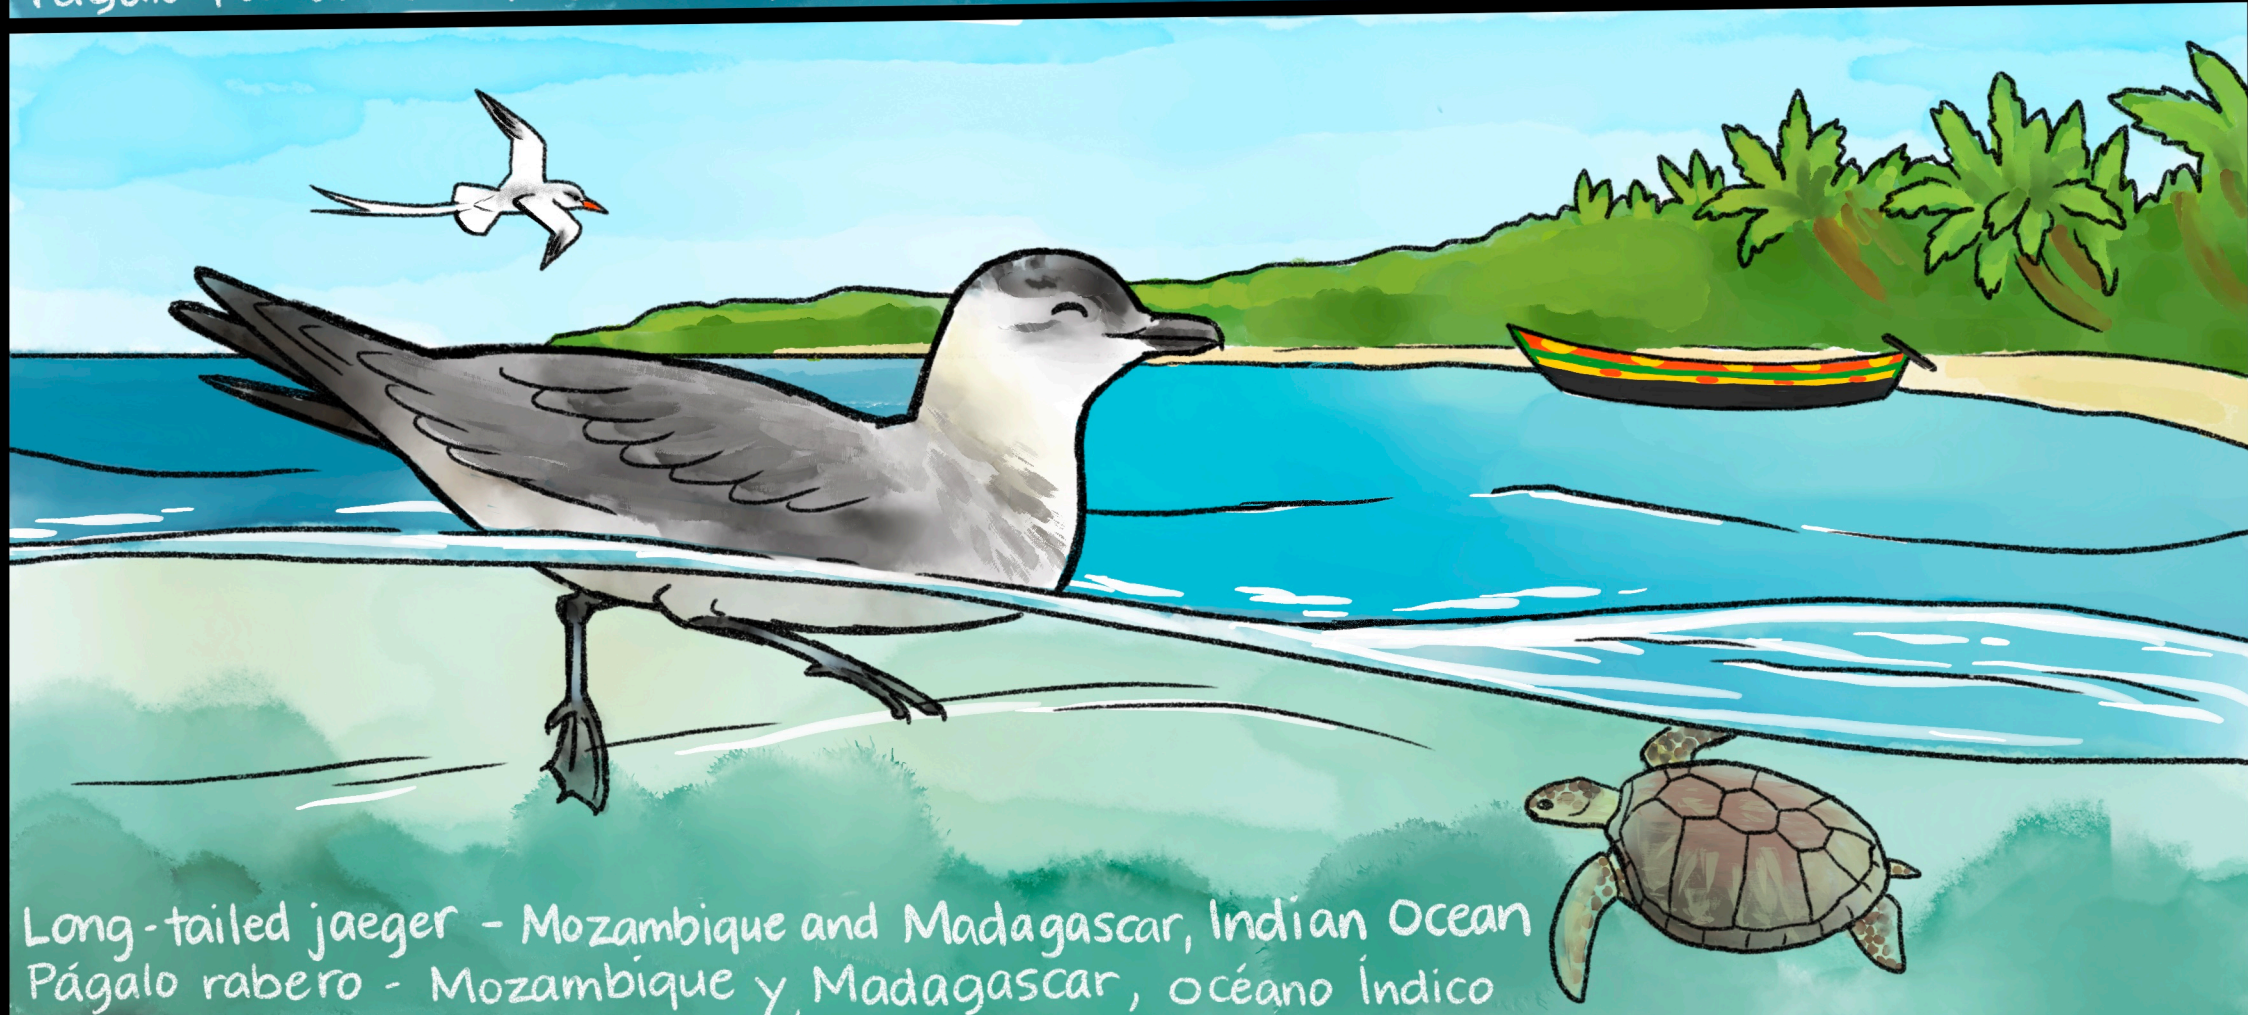

But when winter is coming...  
Pero cuando llega el invierno...

Pomarine jaeger - Micronesia, Pacific Ocean  
Págalo pomarino - Micronesia, océano Pacífico

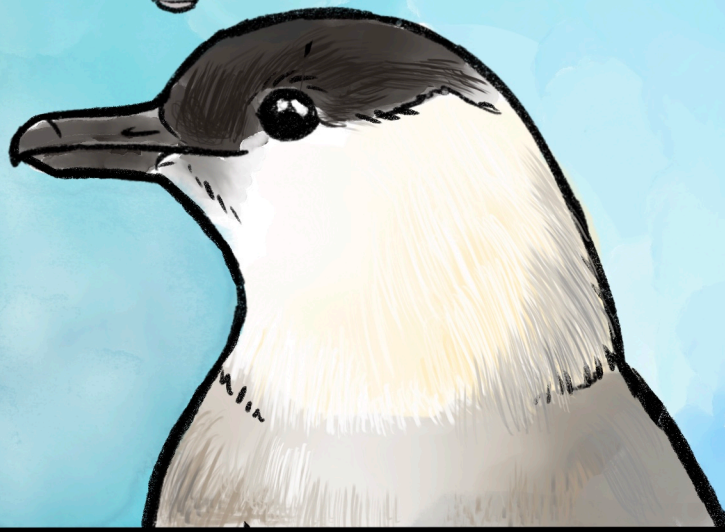

Long-tailed jaeger - Mozambique and Madagascar, Indian Ocean  
Págalo rabero - Mozambique y Madagascar, océano Índico

Parasitic jaeger - Gulf of Mexico, Atlantic Ocean  
Págalo parásito - Golfo de México y mar Caribe, océano Atlántico

The following spring...  
La primavera siguiente...

Entering
