

Bird Friendly® Coffee

It's certified organic and certified shade.

si.edu/smbc

Store Manager:

Please consider finding a roaster or supplier who can provide your store with fresh-roasted, certified organic **Bird Friendly®** coffee.

No other bag guarantees that every bean is produced organically and under high-quality shade. This seal of approval ensures that tropical "agroforests" are preserved, and migratory birds find a healthy haven when they travel from our backyards to the faraway farms producing the beans we enjoy every morning.

Ask your coffee suppliers to look for the "Bird Friendly®" certification mark.

Thank you!

A concerned and loyal customer, _____
